

Public Service Announcement

The Fire Marshal's Public Fire Safety Council and your fire department request that you announce the following important message during your broadcast.

Heating Equipment: TIME FOR A CHECK UP!

Voice Over Length: 30 seconds

Fall is here and it's time to ask yourself, is your heating system healthy?

Your furnace, fireplace or woodstove need yearly checkups to ensure they operate safely and efficiently. Heating appliances should be cleaned and inspected annually to prevent fires and deadly carbon monoxide gas in your home.

It's time for a check-up! Contact a qualified service technician to clean and inspect your furnace, fireplace or woodstove. Remember—a healthy heating system is a safe heating system.
